About the Test

The Medical Selection Admissions Test - Ulster (MSAT-Ulster) is a 2 hour and 40 minute computer based multiple-choice assessment independently developed by the Australian Council for Educational Research (ACER) to assist with the selection of students into undergraduate medicine and health professions degree programmes.

The purpose of MSAT-Ulster is not to test your knowledge of specific academic subjects, it is to test your skills in the interpretation and understanding of ideas presented in a variety of ways. MSAT-Ulster questions typically require you to read and think about a passage of writing, to interpret graphical displays of information, to use mathematical relationships, to reason about data and utilise your ability to understand the thoughts, behaviour and/or intentions of people.

The test has a strong focus on general skills and personal abilities that have been identified as important for a competent health professional.

MSAT-Ulster is offered once annually, in 2025 this will be on the 8 & 9 March.

All important information about MSAT-Ulster can be found in this Information Booklet or on the [MSAT-Ulster website](#).

Please direct all enquiries or concerns by email to the MSAT-Ulster Office and include your full name and MSAT-Ulster ID number so we can easily find your registration and previous correspondence. Email is the best means of communication on matters concerning MSAT-Ulster and all communications from the MSAT-Ulster Office will be via email, unless otherwise agreed by both parties.

To ensure that your email provider does not flag important communication from the MSAT-Ulster Office as spam, please save the MSAT-Ulster email address (msat@acer.org) to your list of safe senders.

Test Structure

The MSAT-Ulster is a 2 hour and 40 minute computer based multiple-choice test. It contains 3 sections they are:

- 1. Critical Reasoning (CR)** – involves comprehending and analysing information; understanding, applying, and extending ideas; drawing appropriate conclusions, and evaluating arguments. These questions use material from the humanities and social sciences.
- 2. Quantitative Reasoning (QR)** – involves analysis and application of information, drawing conclusions, making decisions, and solving problems. These questions use material from the mathematics and sciences.
- 3. Interpersonal Understanding (IU)** - involves the ability to understand and think about people. These questions are based on a scenario, dialogue or other text representing specific interpersonal situations. Using a multiple-choice format, they assess your ability to identify, understand, and, where necessary, infer the thoughts, feelings, behaviour and/or intentions of the people represented in the interpersonal situations.

Test timing

Section	No. of questions	Time
Critical Reasoning	36	50 min
Quantitative Reasoning	36	60 min

Consequently, it is important that any such adjustment be applied for in accordance with ACER's reasonable adjustments procedure. This will ensure such adjustments are made in advance of your test sitting.

Do I need to apply for reasonable adjustments again if I did so in a previous sitting?

Yes, you need to submit an application each time you sit MSAT-Ulster. Arrangements will only be valid for the test cycle and year the application was submitted.

Preparing for MSAT-Ulster

The purpose of MSAT-Ulster is to assess your abilities in a range of cross-curricular skills.

MSAT-Ulster measures skills acquired over a period of time, including the ability to reason, make logical deductions and form judgements.

The test does not draw on any subject knowledge. There would therefore be little benefit to be gained by 'cramming' or coaching. Your best preparation will be to read widely and to think critically about what you read. However, some familiarity with the question types typically presented in MSAT-Ulster is an advantage.

For this reason, you will receive a copy of the MSAT Sample Questions 1 booklet with your registration. You can also purchase the MSAT-Ulster Sample Questions 2 booklet for £15 through your ACER account in the registration portal.

Test taking strategy

Questions in the MSAT-Ulster are in multiple choice format. There is no right or wrong way to work through the test, it is best for you to develop your own strategies that suit your way of working in order to complete the test in the allocated time.

Each test section is separately timed. It is recommended that you work steadily through the test. It is not advisable to spend too much time on any one question. Read through all the alternative answers to a question, even if you think the first one is correct, before marking your chosen response. If you think you know the answer to a question, mark your answer by clicking on the radio button corresponding to your chosen answer, even if you are not certain. Go on to the next question and come back later if you have time.

Remember: All questions have the same value, therefore by attempting as many questions as possible you stand the best chance of maximising your score. No marks are deducted for the wrong answer.

Preparation Materials

ACER produces the only official MSAT-Ulster preparation materials. All questions contained in our booklets have been used in past tests, hence they are the best guide for test preparation.

There are currently 2 publications in the form of printable e-books (hard copies are not available).

Booklet	Cost	Information
Sample questions 1	Free with registration	33 questions with answers covering all 3 sections of the test
Sample questions 2	£15	33 questions with answers covering all 3 sections of the test

We recommend you work through the booklets multiple times. Practicing the types and style of questions is important so you know what to expect in the live test.

When you receive your e-book you are able to:

- Make two hard copies of the e-book which will be imprinted with your name and identifying details.
- Have unrestricted online access to the e-book you have purchased for 12 months commencing on the date the e-book is made accessible to you for the sole purpose of reading the e-book.

How do I purchase preparation materials?

To purchase the Sample Questions 2 booklet you will need to create an ACER account. You do not need to register for the test itself in order to purchase practice materials. Additionally, the purchase of practice materials does not mean you are registered for MSAT-Ulster. Any preparation materials you purchase will be accessible through your ACER account as soon as your payment is successfully received.

Should I attend a MSAT-Ulster preparation course?

MSAT-Ulster preparation courses are not recommended, authorised by, or in any way associated with, ACER. They are unregulated. You will need to assess for yourself whether any particular preparation course is able to supply objective and reliable evidence that participation is likely to improve your score to justify the often significant cost associated with them, and whether representations they make about themselves are accurate.

A sample letter of identification is provided on the MSAT-Ulster website and you are advised to use this template to avoid any problems on the day.

If you attend the test centre on the wrong day or session, you will be asked to leave. You should do so and then email msat@acer.org to explain what happened. Due to the need to finalise venue numbers in advance, you will only have a seat reserved for you on the day, and session you selected during registration.

For security reasons it is not possible to provide replacement result statements to accommodate name changes.

Due to privacy requirements ACER will not provide results over the telephone, by fax or by email. This is to protect candidate confidentiality.

How will Ulster University receive my results?

ACER will provide your results to Ulster University directly for the purpose of selecting applicants into their programmes. You are not required to do anything to facilitate this.

MSAT-Ulster scores

You will receive a score for each of the three sections, together with an overall MSAT-Ulster score. The Overall Score is a weighted average of the three section scores.

Please Note: The Overall Score is calculated to several decimal places and then rounded. The Overall Score is calculated before the rounding of section scores. This makes it impossible for test takers to replicate the process. To assist you in evaluating your test performance your scores will be accompanied by a chart showing an approximate percentile ranking for your Overall Score. This will give you an indication of how you have performed against other test takers in the same MSAT-Ulster sitting as you.

Currency of Results

Your MSAT-Ulster 2025 results remain valid and can be used for application for 1 year.

Can I appeal my score?

No, MSAT-Ulster results are released only after careful calculation and extensive checking, for this reason remarks for any component of the test are not offered. ACER cannot provide any additional information on scores or the scoring process. All information including score analysis and processing remains the intellectual property of ACER and no right of inspection is deemed to be vested in a test taker.

How does ACER ensure equity and fairness?

MSAT-Ulster is developed to rigorous professional and technical standards. Test questions are designed and developed by a team of ACER writers, expert in their fields. All test questions must pass detailed panelling, trial testing, analysis and final review. The content, style, duration and sequencing of the tests are determined to ensure that the testing programme is relevant, fair, valid and reliable. MSAT-Ulster test data is subjected to statistical analysis to check that each question has performed as required. Test questions in development are carefully scrutinised in an ongoing attempt to minimise gender, ethnic or religious bias, and to ensure that the test is culturally fair. The test may contain a small number of trial questions which may not contribute to test taker scores but allow us to ensure that new test questions are working to the expected standard.

Appeals and Complaints

If you have a serious complaint or wish to make an appeal in relation to your test sitting or results, please read the [ACER complaint and appeals policy](#).

Should you wish to query a particular test question, please alert the supervisor of your concerns on the day of the test. Your query will be reviewed by the MSAT-Ulster office and forwarded to the test developers for review.

Similarly, any complaints relating to technical issues, the test venue or physical discomfort suffered should be reported immediately to the supervisor on the test day so the issue can be addressed without delay, and in writing to the MSAT-Ulster office immediately after your test session so that the issues can be resolved within the testing window if necessary.

Please note: It is not possible to schedule tests outside of allocated test windows. All technical and or delivery issues arising must be addressed immediately and resolved during the advertised test window in March each year. You are advised that MSAT-Ulster results are released only after careful calculation and extensive checking and errors in scoring are highly unlikely.
